# Birch Barker

The official summer publication of the Birch Lake Yacht Club

## Happy July 4th

Thanks to our Artist-in-Residence Duffy Dufour for the great lake art ...

### COMMODORE'S COMMENTS

On behalf of the Birch Lake community, I express our sincere sympathy to the family of Tom Howard. Tom passed away unexpectedly last Saturday afternoon. He was a long-time south side resident, and I hear quite an avid sailor in his younger days. Tom will be missed.

Our sympathies also go out to Rick Russwurm who's mother died last week.

Last Saturday was a picture-perfect day for the Don Harman's People Regatta. We had blue skies, perfect wind, lots of sailors, and a delicious hot dog lunch. A fun time was had by all! Thanks to Amy and Mike Lutz and Patty Luecht for sponsoring the event.

There was a nice turnout for the teen party last Saturday. Pizza, pop, ice cream, and games. Sounds like fun to me! Hopefully, this will turn into an annual event. A big thank you goes to Keith Kinzler for planning the party.

Fourth of July weekend is upon us, and Birch Lake is a perfect place to celebrate our country's birthday. The fun begins at 2 pm with our annual boat parade. All the favorite recording artists

and their boats should line up at Dick Bender's pier (south side) to begin the parade lap around the lake. Look in this Barker for the announcement of this year's Grand Marshalls. It has been kept top secret until today! Thank you to Bob and Sue Waddle for organizing this favorite event.

Fireworks begin at dark on Saturday. Remember they will be coming from the field behind the tennis courts up at Camp T. I hate to even mention the "R" word, but if it does happen to rain Saturday night, fireworks will be Sunday night (July 3). Thank you to Chas Grundy for coordinating the show. Thank you also to all of you who contributed to the fireworks fund. As you know, these shows are not cheap! The cost of our show the last couple of years has been around \$8,000. This year, all of the profits from the Spaghetti Dinner (approximately \$1,200) went toward the fireworks. The rest of the money came from individual contributions. Thank you!!

The weekend festivities conclude with the Pancake Breakfast on Sunday morning. Breakfast will be served from 8:30 to 11 in the dining hall at Camp Tannadoonah. All of the profits from the

names and learn a little about each candidate. Hope to see you there!

I wish you all a happy and safe holiday weekend. Remember there will be a big increase in the number of people on the lake, so be vigilant and watch out for each other. A safe weekend will be a fun weekend! Hope to see you on the water!

~Commodore Sue

## Homeowners Association to host Porter Township candidates

The Birch Lake Homeowners Association will have its annual meeting following the July 9 BLYC Board meeting (at approximately 10:30 am) at the Yacht Club. This year the Homeowners Association has invited the candidates running for officer and trustee position on the Porter Township Board of Trustees. Plan to attend!

## Boat Parade Grand Marshal

It is a little early, but happy Fourth of July Holiday to all. Each year, we are tasked with choosing very deserving Birch Lakers to lead the Boat Parade as Grand Marshal. This year the decision was easy. We are pleased to announce our selection of *Duffy and Sue DuFour* of the East Side as our Grand Marshal this year.

Duffy (aka A.C.) was born in Utica, Michigan and graduated from Michigan State University in December, 1946. He

came to Middlebury, Indiana in 1947 as a newly hatched veterinarian, worked for Dr. C.R. Corson. By 1949 he had opened his own practice in Lagrange, Indiana and in 1950 he married Sue Norris of Middlebury. After two years in the Air Force he returned and opened a small animal practice in Elkhart. Sue's parents owned a farm on Lake

Maxinkuckee in Culver, Indiana, but in 1970 her dad could no longer maintain the farm and it was sold. Duffy and Sue really wanted a place on a lake and luckily found a rental cottage on Birch Lake. After renting it from the late Bernie and Helen Weesner for about seven years they were again lucky enough to buy the place.

Duffy was a veterinarian for 60 years, 50 of those in Elkhart. He has related many unique animal stories that have been printed in the Barker. His present hobby is art and his drawings appear in the Barker. Last summer he was honored to be chosen as the Grand Marshal of the Pet Parade.

Celia and Paul Fallon will have the privilege of escorting the Dufours as they lead the parade around the lake. Please get out and show your appreciation for the Dufours and for all the decorating efforts by all the parade entrants.

The parade begins at 2 p.m. on Saturday, July 2, so please register at Dick Bender's pier before that. After the parade lap all boats should return to the registration pier to receive a trophy. Only one entrant will be judged "Most Outstanding."

## July 4th Regatta

The Fleet Captain has advised that the starting times both Saturday and Sunday have been altered to accommodate other activities. Races will begin at **10 am on Saturday** to give people time to participate in the boat parade at 2. **On Sunday, races will begin at noon** because of the pancake breakfast at Camp T from 8:30 - 11 am.

## Pancake Breakfast

Come join us this Sunday, July 3, for the annual Pancake Breakfast at

Camp Tannadoonah. From 8:30 am to 11 am, we'll be dishing up all-you-can-eat pancakes (a limited supply of gluten-free pancakes will be available), sausages, fruit, coffee and juice!

Cost for breakfast is \$5 for adults, kids age 6-10 are \$2 (kids age 5 and under are free).

Last year's proceeds from the break-

fast were used to buy materials to build new bunks in the cabins at Camp Tannadoonah. This year's take will be used to help update the equipment in the dining hall kitchen in memory of Dom Harman.

Come and have breakfast and show your support for all the great kids who attend Camp!

## Visitors on north shore

This Holiday weekend we will host perennial 4th of July guests: Chuck and Karen Horn (Carmel, IN) / Ric and Lisa Dwenger (Muncie, IN). Cal's ladyfriend, Elizabeth Kramer, will be back and ... it's hoped Liz's parents Steve and Mary Kramer (Dodge Center, MN) will also visit. Which and how many of Cal's friends will attend? TBD. Please feel free to stop by to say hi or ... wave as you go by!

## Find another hobby!

Attention: For those of you who

think it's ok to shoot, poison, or drown the creatures of Birch Lake because they annoy you or get in your way couldn't be more wrong. And yes you know who you are. I've been on Birch Lake for 60 years and this makes me very sad and physically ill that someone could do such a thing ... I'm the voice of all chipmunks, bunnies, birds, ducks, herons, turtles, raccoons, deer and muskrats that can't be heard. They live here too. And for all of you who love Birch Lake as I do should also include and learn to live with the creatures of Birch Lake. So if you feel the need to go out and kill some-

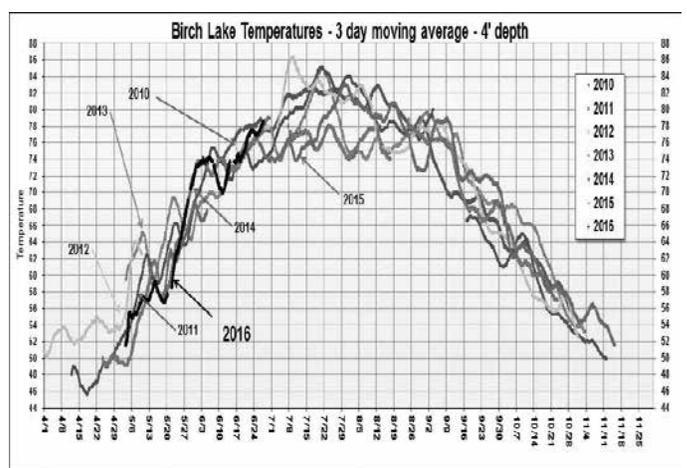

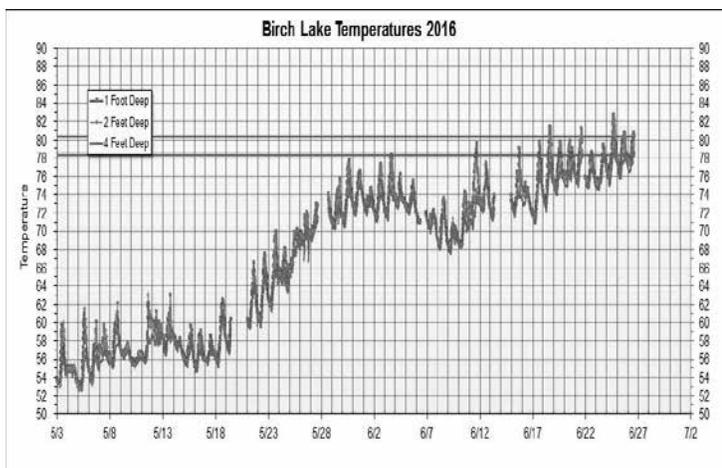

thing such as our creatures of Birch Lake please find another hobby and leave Birch Lake intact, creatures and all.

## Summer Art Show is July 9

Regional and local artists will be showcased at the Cass Area Artists Summer Show on July 9.

Jewelry artist Darlene Troyer (Birch Lake east side) will be one of several jewelry artists participating in the show. Darlene works with precious metals and fused glass, and has been perfecting techniques that she has learned from master crafts persons and from teaching jewelry classes. She has won numerous awards and her art is currently featured in several Michiana galleries.

Visitors to the show can win free artwork which has been donated by participating artists. Drawings for the free art work will be held throughout the day so that winners can take the artwork with them.

With juried art, affordable prices and new artists, the Cass Area Artists show will showcase a wide range of visual art that will allow patrons to add to or update their collections with a fresh look and spend an enjoyable day in Cass County.

*The Bad Patty Flag is once again flying high! After a "mishap" during the start of the sailboat races on June 26th, it was snapped off the committee boat by a sailor in the MC fleet. This sailor will not be named to save him from the embarrassment. (however, he does live on the east side, in an A-Frame, next to the Flamingo Room, his initials are P.M. and he sails boat #1735!!)*

The one-day Cass Area Artist Summer Show is free and located on the outdoor track of the Lowe Center COA at M-60 and Decatur Road in Cassopolis. It will be open from 10 am until 4 pm.

## Celebrate Birch Lake

As the 4th is coming up and our family is coming up to be with us to cele-

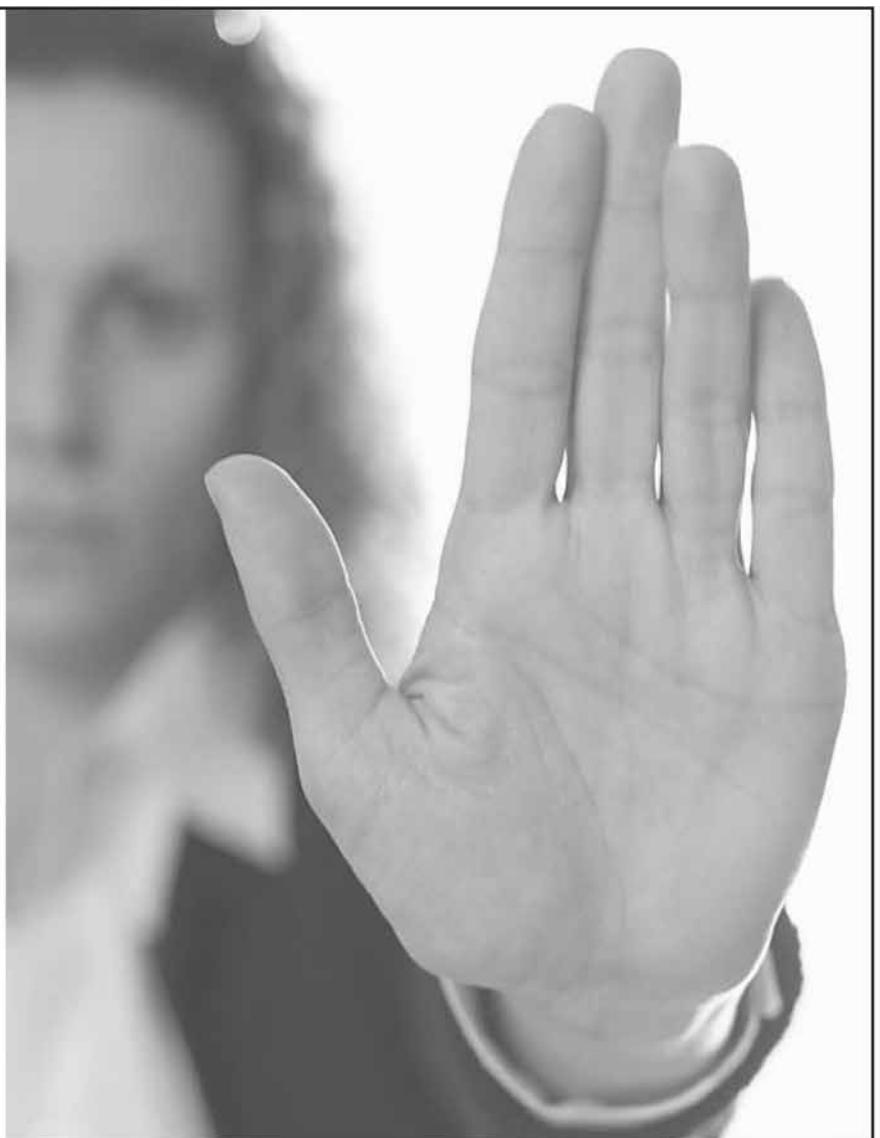

brate. I think of what a wonderful, fun place we have on Birch Lake. This year we will also celebrate having our beautiful place for 50 years thanks to my Grandpa Morgridge who bought it for my mom as a gift. He had saved up money for both my Mom and my aunt Louise for college and was able to send them both to collage without using that.

money. So in 1966 he gave that money to them as a gift. Mom and dad bought our cottage and my aunt Louise and uncle Sid got a cabin cruiser on Lake Michigan. It was neat that my mom, who grew up in Niles, Mi, played at the East's property at Birch Lake when she was a kid. That property is the property that grandpa got for her years later.

I thank my family for getting this wonderful home that my husband and I now live in. It's what my mom wanted, a place for friends and family to gather and enjoy each other and our beautiful Birch Lake.

## COMMON SENSE BOATING

- \* No matter what your speed, always travel in a **COUNTER CLOCK-WISE** direction
- \* Go **SLOW** near other boats, rafts and shore. You are responsible for your wake.
- \* Take your time and give room - stay **100'** from shore, other boats and rafts when you are travelling over wake speed
- \* When pulling someone on skis or a tube, you **MUST** have an observer. Watch out for other boats and be sure to add the length of your tow line to the 100' clearance rule
- \* There must be one **USCG-approved LIFE JACKET** for every person on board, as well as one **throwable device** (seat cushion, etc.), a horn, a fire extinguisher, and a valid registration
- \* **PWCs (Jet Skis)** must stay **100'** away from all boats and other PWCs. Jet skis have many special rules — It is your responsibility to know and **OBEY** the laws
- \* **Be responsible for everyone on your boat — safety is NO ACCIDENT!**

## Eurasian Milfoil

**E**urasian Milfoil is an aggressive, tall growing exotic aquatic plant from Europe and Asia. It is capable of growing to the surface in 10 to 15 feet of water. At the surface it forms a dense canopy of vegetation over other plants. Many native plants may be reduced in abundance by the Milfoil canopy. It also conflicts with many recreational activities. In dense conditions it is a serious localized and lake wide problem. It is not a significant food crop for waterfowl, other birds or aquatic mammals. It readily regenerates from detached fragments and spreads rapidly. Consequently, this plant can form dense colonies covering much of a lake's shoreline out to a depth of about 20 feet.

Monday, May 23 Progressive AE surveyed Birch Lake for invasive aquatic vegetation species. Progressive AE has

been surveying our lake since 2007. Every year they have surveyed the entire lake. This year one site was identified as having invasive species. The location is at the north end of the east shore where Eurasian Milfoil was identified along with Curly Leaf Pond Weed. Curly Leaf Pond Weed is not a concern because when the water temperature rises into the lower 70 range it will die. On the other hand the Milfoil was treated.

Professional Lake Management treated the site on June 7. They treated approximately 1-¼ acre. Progressive AE conducted a follow up inspection on June 23 and surveyed the entire lake. The survey did not reveal any other problem areas. However, the treatment on the east shore was not 100 percent successful. Professional Lake Management will return for a partial treatment on a por-

tion of the previously treated area. This year the Milfoil was especially hardy due to the mild winter.

This annual program is important in order to keep the Milfoil under control and to detect any other invasive species in the early stages to enable us to better control them. With your continued support we can maintain this important program and avoid having to deal with acres of invasive species like so many other lakes are currently dealing with. A good example of what can happen when Milfoil is not treated is Stone Lake in Cassopolis, which currently has approximately 67 acres of eurasian milfoil spread around nearly the entire shoreline.

## Storm takes wind, no sailing!

Well as many of you know, we did not sail last Sunday. Harold and I had set the marks with strong SSW winds that were about 5 to 10 mph. I got back to the house to look at the radar one last time and saw a strong line of thunderstorms heading our way. We put the races off an hour hoping that the storms would move through and we could get our sailing under way. After the storms came through the winds died to almost nothing, leaving me no option but to cancel the races.

Looking at this weekend, we will have

our first regatta of the season, this will consist of three races on Saturday (10 am because of the boat parade) and two races on Sunday (noon due to pancake breakfast) with Monday being the rain day, if either day gets postponed!

In closing, I want to thank all the sailors and participants that came out last weekend for the "Kids Regatta" we had a good turnout and many great experiences hope to see you young sailors out on the lake soon! Have a great and safe fourth!

Until next week "Splice the main brace"

**An Experienced Public Servant**

Steve Northrup  
Ph# 269-476-1275  
13562 Harvey Street

I am a lifelong resident of Cass County and my family still resides in this area. I moved to Porter Township with my wife Christine in 2002. I retired after 32 years of service with the Cass County Road Commission and then spent 6 years with Great Lakes Chloride in Michigan Sales.

My two terms as Porter Township Trustee have afforded me the opportunity to address many issues which affected the lives of our residents which included the negotiation of contracts to secure safe and affordable services needed while maintaining a balanced budget.

I created a long-term plan to upgrade all township roads used by our residents. This plan includes directing the dust control, gravel maintenance, and securing cost-effective long-term maintenance for our paved roads.

- **SERVING THE PUBLIC** of Cass County for over 40 years.
- **8 Yrs as Porter Trustee** serving the residents of Porter Township.
- **32 Yrs Experience** with the Cass County Road Commission.
- **Trained And Experienced** to work with County and State agencies.
- **Problem Solving Skills** to negotiate issues on behalf of all residents.
- **Accountable** and courteous to every township resident.
- **Accessible and Available** to listen and consider all views and opinions.

I have also served as liaison to the SEPSA board and as a member of the Zoning Board of Appeals and have gained extensive knowledge regarding the importance of careful study before making any decisions affecting all township residents.

As a Veteran and life member of the Post #4054 Veterans of Foreign Wars, I promise to uphold and protect those rights and freedoms guaranteed to each of our citizens of Porter Township, State of Michigan, in these United States of America.

- Keep us moving in a **Good Direction.**
- Elect an experienced **Public Servant.**
- Elect a leader you can **TRUST.**

When it comes to choosing a Realtor, it's not about claims of having or selling the most listings. Nor is it about the claims of being the "Lake or Waterfront Expert." It's about who will provide you with a quality experience and good results from listing or searching to closing. Read what my clients have to say and then call me when you're ready to sell or buy.

**Elizabeth Carey and Steve Decker -- Sold our home on Indiana Lake**

"Vickie is an extremely dedicated professional who will make you feel like you are her top priority. She can grasp complicated situations easily, explain them to you accurately, and then wisely advise you as to what to do. We found her knowledgeable in many areas and helpful in many ways beyond her obligations as a Realtor. You will enjoy working with this personable, warm, trustworthy lady who will take the stress and strain of buying and selling a home off your shoulders and put them onto hers."

**Amanda North Druckeniller** "Working with Vickie to sell our home was a pleasure! Our home sat on the market for a year with another realtor. We switched to Vickie and had an offer within a month! Vickie is prompt, professional and very knowledgeable in her field. I strongly recommend her for your realty needs!"

**Tom Davidson -- Top qualities: Personable, Expert, High Integrity**  
"Vickie did an excellent job in finding a house in Michigan that represented what I was looking for. She also was instrumental in providing detailed information on the history of my property and several adjacent Birch Lake properties which along with her knowledge of building regulations allowed me to obtain a reduction in property taxes. She is dependable, knowledgeable, and follows through. I would highly recommend her."

My name is Becky. I am a granddaughter of Jim Foos in the cove. Here is a picture of Jim Foos (79 yrs young) and his two granddaughters (Amy Condle and Becky Anderson) skiing around Birch Lake from Father's Day. (We have also started the next generation of Birch Lakers with Jim's great-grandkids having lots of fun this year as well) I know seeing this picture in the Barker would make my grandpa smile!

Tate Guyton, 8 year old grandson of Di Wozny and Craig Fredlake, South Side, and Bob Wozny and Kathy Niles, West Side, quickly mastered wakeboarding in a few lessons. He loves it! Tate is the son of Meredith (Wozny) and Jeff Guyton, West Side.

# STU'S STAR STUFF

## Explaining the phases of the moon

**H**ave you ever wondered what causes the moon phases? We all know that its appearance changes over time. But why?

It's probably easiest to understand the moon cycle in this order: new moon and full moon, first quarter and third quarter, and the phases in between.

The new moon occurs when the moon is positioned between the earth and sun. The three objects are in approximate alignment (why "approximate" is explained below). The entire illuminated portion of the moon is on the back side of the moon, the half that we cannot see.

At a full moon, the earth, moon, and sun are again in approximate alignment, just as the new moon, but the moon is on the opposite side of the earth, so the entire sunlit part of the moon is facing us. The shadowed portion is entirely hidden from view.

The first quarter and third quarter moons (both often called a "half moon"), happen when the moon is at a 90 degree angle with respect to the earth and sun. So we are seeing exactly half of the moon illuminated and half in shadow.

Once you understand those four key moon phases, the phases between should be fairly easy to visualize.

An easy way to remember and understand those "between" lunar phase names is by breaking out and defining 4 words: crescent, gibbous, waxing, and waning. The word crescent refers to the phases where the moon is less than half illuminated. Gibbous refers to phases where the moon is more than half illuminated. The word waxing essentially means "growing" or expanding in illumination (unless you're Bob B.), and waning means "shrinking" or decreasing in illumination.

Thus you can simply combine the two words to create the phase name, as follows:

After the new moon, the sunlit portion is increasing, but less than half, so it is waxing crescent. After the

first quarter, the sunlit portion is still increasing, but now it is more than half, so it is waxing gibbous. After the full moon, the light continually decreases. So the waning gibbous phase occurs next. Following the third quarter is the waning crescent, which wanes until the light is completely gone - a new moon.

### The Moon's Orbit

The moon goes through a complete moon phases cycle in about one month. But it's not exactly one month. The synodic period, or lunation, is about 29.53 days. It's the time required for the moon to move to the same position (same phase) as seen by an observer on earth. If you were to view the moon cycling the earth from outside our solar system (the viewpoint of the stars), the time required is 27.3217 days, roughly two days less. This figure is called the sidereal period or orbital period. Why is the synodic period different from the sidereal period? The short answer is because on earth, we are viewing the moon from a moving platform: during the moon cycle, the earth has moved approximately one month along its year-long orbit around the sun, altering our angle of view with respect to the moon, and thus altering the phase. The earth's orbital direction is such that it lengthens the period for earthbound observers.

Although the synodic and sidereal periods are exact numbers, the moon phase can't be precisely calculated by simple division of days because the moon's motion (orbital speed and position) is affected by various forces of different strengths. Hence, complex equations, that only I and a few others can even begin to understand, are used to determine the exact position and phase of the moon at any given point in time.

So why, at a new moon, doesn't the moon block the sun, and at a full moon, why the doesn't Earth block sunlight from reaching the moon. The reason is because the moon's orbit about the earth

### The Moon for this Saturday

**Moonrise: 4:45am**

**Moonset: 7:31pm**

**Day length: 15h 10m**

is about 5 degrees off from the earth-sun orbital plane.

However, at special times during the year, the earth, moon, and sun do in fact "line up". When the moon blocks the sun or a part of it, it's called a solar eclipse, and it can only happen during the new moon phase. When the earth casts a shadow on the moon, it's called a lunar eclipse, and can only happen during the full moon phase. Roughly 4 to 7 eclipses happen in any given year, but most of them are minor or "partial" eclipses. Major lunar or solar eclipses are relatively uncommon.

Go give your neighbor the moon. That's free, right?

# YOUR HOROSCOPE

**Aries (March 21-April 19)** Home and family is your focus now. This is a good time for family discussions, especially about home repairs. Act on your ideas to redecorate your digs and make things look better. Whatever you do will not only enhance your home but increase its real-estate value.

**Taurus (April 20-May 20)** This continues to be a busy week with short trips, errands, conversations with everyone plus increased reading, writing and studying. It's a good time for those who write, edit, study, act, teach, sell and market because your communication skills are hot! Avoid arguments late Thursday. You'll notice that difficulties with a close friend or partner that have been a squeeze play since April will now start to soften.

**Gemini (May 21-June 20)** Finances, cash flow and earnings are your focus. You've got moneymaking ideas and chance to boost your income. Be careful about shopping or demanding your way on Thursday evening - not good. Aside from that, increased wealth or profits with a family business or real estate will please you by the end of this week.

**Cancer (June 21-July 22)** The Sun, Mercury and Venus are all in your sign. This is empowering! It gives you energy. Plus it makes you talkative, charming and diplomatic. This is why others want to be in your presence. In turn, this is also why you might solidify plans for a vacation or something to do with sports, musical performances, the arts and playful times with children.

**Leo (July 23-Aug. 22)** With three planets "hiding" in your chart, you are waiting in the wings. It's a pregnant moment waiting to take birth or burst out a month from now. This means the next few weeks are the time to get your ducks in a row and do careful planning. Your efforts will ultimately affect your earnings.

**Virgo (Aug. 23-Sept. 22)** This is a social time for you because you're enjoying hanging out with friends and being involved with clubs, groups and organizations. Younger people are in the picture plus creative, artistic types. It's a swirl of fun and activity! A platonic friendship might turn into something romantic. Starting this week, you will notice that others will listen to you more because your communications will be bolder and more direct.

**Libra (Sept. 23-Oct. 22)** Make the most of the next month because almost by magic, you look fabulous to others, especially bosses, parents, teachers and the police. Since you can pull off this magic act, demand the advantage! Make your pitch to the boss. Push your agenda or ask for permission or approval for something because you will likely get it. (It's smoke and mirrors.)

**Scorpio (Oct. 23-Nov. 21)** Any opportunity to travel will delight you now because three planets are in the part of your chart associated with travel, exploration and foreign countries. You really want to expand your experience of the world. But, if you can't travel, explore your own environment because this will also give you satisfaction and rewards.

**Sagittarius (Nov. 22-Dec. 21)** This is a passionate time, which is why you might be absorbed with a romantic relationship. However, this is also a time to focus on mortgages, debt, taxes, inheritances, wills and shared property. Tackle loose ends in these areas because you can benefit somehow. This is an excellent time to go for a loan or a mortgage because the stars favor now and for the next few weeks.

**Capricorn (Dec. 22-Jan. 19)** (Note; A gentle reminder that you need more sleep in the next few weeks. Be kind to yourself.) With three planets opposite your sign, you are focused on partnerships and close relationships more than usual. On the whole, you can improve these relationships.

**Aquarius (Jan. 20-Feb. 18)** You are in work mode now, and admit it - you like it! Ever noticed that the more you want to get something done - the less it feels like work? Part of what motivates you now is a desire to be efficient and productive. (Hey, even if you're a train wreck - at least, you're a cautionary tale.) Don't let your desire to introduce reforms and make improvements on your job lead to an argument on Thursday.

**Pisces (Feb. 19-March 20)** The next few weeks will be fun-loving and playful! Accept invitations to socialize and party. Enjoy fun activities with children, the arts, movies, plays, picnics - you name it. This is also an excellent time to go on a vacation. Meanwhile, romance and love affairs will flourish. Take note that Thursday is an intense day dealing with lovers.

## Super Hero week at Camp T

It's Super Hero week here at Camp Tannadoonah! On Sunday evening we had Super Hero Training – a series of stations for campers to test their strength, balance, speed, agility, etc. We had a tug of war, a game of “sharks and minnows,” and a game of “Go for the Gold.” At crafts this week, the kids are making Super Hero capes and masks. Other evening activities include Super Kickball, and a Counselor “Villain Hunt.” They also have Superman Ice Cream planned for one evening ... hopefully on a night when it's warmer than it is today as I'm writing this!

All the stormy weather last week led to a lot of questions about how we handle weather emergencies here at camp. During staff training, we spend time discussing procedures and what to do in different situations. Miss Michelle (my assistant director) and I each carry walkie talkies with built-in weather radios. Whenever there is a storm watch, we alert all of the counselors in camp, just to make sure they stay aware of what's going on. We have several different signals for severe weather, so if a counselor

doesn't hear the message over the radio, we also blow the air horn or ring the big bell outside Main Lodge to signal an emergency.

If a tornado warning is issued, or if the storm gets bad, we immediately bring all of the campers to two central locations: The Dining Hall and Morris Lodge. Both of these buildings have basements, so they are the safest places in camp to bring the kids. During the time we're waiting out the storm, we sing camp songs and play games to keep the kids calm. We monitor the weather radar and radios, and if it gets bad, we move the campers to the basements. We also do periodic drills with the counselors to make sure they stay sharp and remember all of the proper procedures for various emergency situations.

Last week we took all of the campers to the dining hall on Wednesday night when the storms came through – but luckily we were only there for a few hours, and didn't have to go to the basement because it never got really bad. Sunday afternoon this week we had to cancel the swim test because of thunder and lightning, which meant

we had to do a lot of creative rearranging of the schedule on Monday!

Our camper numbers continue to climb. We're currently at 888 campers for the summer! That's 41 more than we had last year at the end of the summer. Unfortunately, we don't have a lot of room to continue to grow this year. We're still hoping to get to 900 for the summer, but after the 4th of July, there are only 14 more beds available for the whole summer – and 13 of those spots are for boys! So we're pretty much at capacity for girls from here on out.

It's so exciting to see the numbers creep up closer and closer to 900! We're a long way off from the summer of 2006 when we had a grand total of 351 campers for the entire summer.

We're all looking forward to a little bit of a break next week for the 4th of July Holiday. Our international staff are excited to see what the holiday is like here in the states! We hope to see many of you here for the pancake breakfast on Sunday morning! Have a wonderful holiday weekend.

Until next week,

~Miss Amber

## PUBLIC AUCTION

**Public Auction, Saturday July 9th 2016 at 10 am**; 23576 South Shore Drive, Edwardsburg MI. Exceptionally clean, high Quality Estate liquidation sale for David and Lee Kinson Estate. (Sherry Hollemans' parents). Some items of interest: 2009 Pontiac Vibe, good condition, low miles, 1990 Hurricane with 175 HP Cobra inboard. Great condition. Electric Shore Station, boat lift with canopy, in excellent working condition. Toby mugs, a primitive dry sink, (1850), solid Cedar Chest, several sets of good dishes (Copeland-Spode) dinnerware for 8. Jewellery & Silver. Household furniture, including beds, couches, sofa sleeper, dining table with chairs, and much more. Car, boat and shore station to be auctioned around noon.

**WANTED Looking for a place to rent.** I'm Michelle, the new Assistant Camp Director and After School Program Director at Camp Tannadoonah, and new to the area. I'm a responsible, non-smoking, pet-free, tidy 32-year-old. Since I live at Camp during the summer, I could even vacate during the prime season. (734) 652-1611

**WANTED: 6 hp or below out-board motor.** Contact Machallecks at 476-2642

**WANTED: Return our name! We have had our family's last name on the back of our cottage** for 30-plus years, and last week it was taken from the cottage. I am sure that it is somewhat of a novelty but it has sentimental value to it since our father made it and recently passed away. We would greatly appreciate it's return to 63500 Birch Rd. Thank you. The Thomas Drinkall family
